

CAROLINE NIJS
—PHOTOGRAPHY—

Dear ,

I don't say this to sound dramatic. I say it because I've seen it happen, and I've lived it. A horse's story is written in fleeting moments—one chapter blending into the next. And it's so easy to forget how quickly time moves.

Maybe you've thought about a photoshoot but hesitated. You've told yourself you'll wait until your horse is better trained, or until you feel more comfortable standing in front of the camera.

But waiting doesn't change the moments you're living right now.

It's the way your horse stands next to you, their trust in knowing you'll do right by them. The connection you feel just by being close to them. These moments don't need a polished backdrop or perfect poses, they just need to be noticed.

That's what I do. I don't just take pictures, I capture the details that mean something. The messy mane that is impossible to tame, the curious nuzzle looking for treats, and the way you smile without even realizing it when your horse turns their head toward you.

To help you hold onto these moments, I offer two carefully crafted photography experiences.

The Essential package includes a relaxed one-hour session at a location of your choice, resulting in 30 beautifully edited high-resolution images. It comes with a handmade album, crafted in Italy, featuring your selected photos. You'll also have the option to switch outfits once during the session.

For something more expansive, there's The Beyond package. This two-and-a-half-hour session gives you all the edited high-resolution images from your shoot. It comes with a luxurious, fully customizable album showcasing 40 of your chosen photos and a premium canvas print (28x35) of your favorite image. With this package, you'll have the chance to plan up to two outfit changes.

Both options are designed to reflect the connection you share with your horse, exactly as it is right now.

If you're curious, let's chat. We can talk about which option feels right for you and your horse.

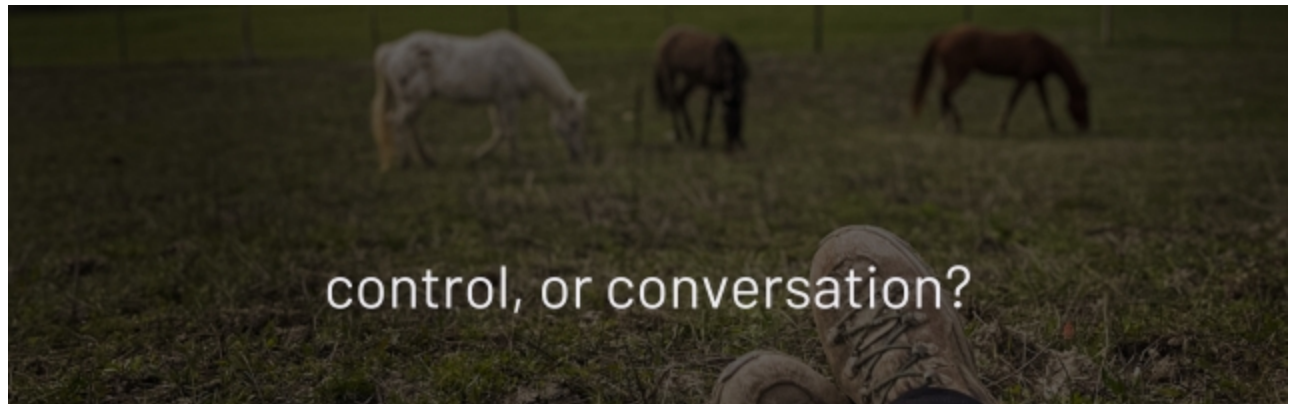

Because the truth is, your connection with your horse already *is* the masterpiece.

Let's make sure you can hold onto it.

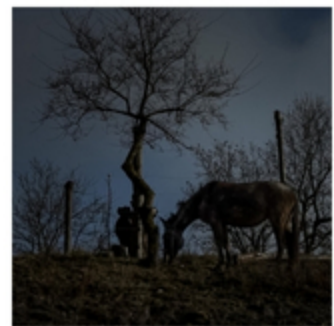

What **caught my eye** on social media this month.

What if the key to building a stronger bond with your horse isn't control, but understanding?

This post challenges the idea of “changing” your horse and instead explores how shifting your perspective can transform your relationship. Do you agree with this? I'd love to hear your thoughts.

My month in 3 images

As always, thank you for being a part of my journey.

Hold onto those small, everyday moments with your horse—they're the ones that matter most.
